DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, drawn to a toy vehicle having a wheel assembly and a steering mechanism, classified in class 446, subclass 460.
 - II. Claim 19, drawn to a trailer for a toy vehicle, classified in class 446, subclass 434.
2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a toy vehicle having a particular steering assembly which is not connected to a trailer, and invention II recites a trailer which can be connected to any toy vehicle, not just the vehicle of Group I. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and vice versa, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Michael Schumann on March 7, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3712

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kurt Fernstrom whose telephone number is (703) 305-0303.
